

BUY, SELL, AND TRANSPORT
UKRAINIAN
AGRICULTURAL
GOODS.

Introducing the world's first online marketplace for Ukrainian-grown commodities.

Go to market

Find the widest possible selection of buyers, growers or couriers in one place.

Do research

Compare prices and make informed decisions with market analytics and buyer, seller, and courier performance ratings.

Close the deal

Save time and money by doing everything online, including signing contracts and hiring transportation providers at a single market rate.

How It Works

Connecting farmers to the wider world of online buyers

Our platform provides a central location for farmers to connect with grain traders, exporters, processors and consumers throughout the world.

Sell more, at the best price, in no time at all. Quickly identify market opportunities, and safely execute customized deals with reputable buyers.

Our carrier search option is fully integrated into the process, giving you complete farm to fork control over your transactions and better efficiency than ever before.

Discover a better way to buy commodities in the Ukraine

Get easy access to Ukrainian farmers selling all kinds of cereals, legumes, and oil-bearing plants in an open and competitive market.

Shop for the best prices and quickly identify trustworthy sellers offering you the best possible overall deal, including tariffs, conditions, and payment terms.

You can also save time and money by searching for your own transportation provider through our fully integrated carrier search option.
